

Dear Friends,

Sorry that this Newsletter is a month later than usual. The reason for this delay is twofold. Firstly, with all the snow and ice we experienced in January many of my meetings had to be postponed due to the various venues being inaccessible. This meant that there was not very much news to report back to you. Secondly, I wanted to be able to share with you news about our visit to USA and in particular our visit to the Grand Canyon.

I did not have any speaking engagements in December apart from our TV programme. This was deliberate as we needed to have a rest from all the travelling and the 'quieter' time enable us to start writing the next book which is going to be a joint effort - me **and** Irene. Basically we hope to turn my talk about **Can You Trust the Bible?** into some sort of a book format. I have been asked to do this by a number of people. Irene and I hope to meet with a publisher in the next couple of months to discuss its format, production, etc. We hope this will be a good aid to helping people realise that the Bible can be trusted from an historical point of view.

I know that some of you were disappointed that Irene and I were not on *Genesis TV* in February. Changes are being made at the studio at the present moment and our series has come to an end. We should have a new series later in the year and will be sure to keep you informed about it. We want to thank those of you who have encouraged us with your kind comments about the programme and we are pleased to know that it has helped a number of people. We attended a training session with fellow presenters and management staff of *Genesis TV* at the beginning of February so that we will be prepared for the new series. Please pray for the staff at *Genesis – Revelation TV* as they are under constant attack from those who would love to close them down. People are coming to know the Saviour via the witness of these TV stations.

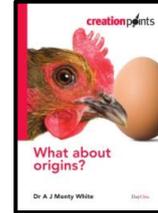

Yours sincerely in Christ,

Dr Monty White

"Ah Lord God! behold, thou hast made the heaven and the earth by thy great power and stretched out arm, and there is nothing too hard for thee" Jeremiah 32: 17

What About Origins

Enclosed with this Newsletter is some information from the publisher of my book *What About*

Origins? It is due out in April. I am also enclosing an order form for it in case you would like to pre-order a copy. I will send copies to you post free if I receive your order and payment before the end of March. It is exciting for me and I hope that it will help people as much as the first edition did.

Conferences

In September I will be speaking at a weekend conference to be held in the seaside town of Saltburn-by-the-Sea, North Yorkshire. The theme of the conference will be **Origins and The Bible**. The venue is the comfortable *Brockley Hall* where you can be assured of relaxing surroundings and delicious meals as well as good fellowship. The dates for this weekend are **10-12 September 2010**. For information about the costs and to make a booking please contact: **David Brooking – 01287 622 329** or E-mail him at brockleyhall@cehc.org.uk

Brockley Hall

The other conference I am speaking at will be held near Llandovery, mid-Wales **25-30 October 2010**. For further information please contact **Jan & Beryl Klei – 01983 527 266**.

USA Visit

In February Irene and I had the privilege of travelling to USA for some ministry. While we were there we managed to have a few days holiday. We were met in Phoenix by Joseph Kezele who is the President of AZOSA (Arizona Origins Science Association) he and his wife Patty were our wonderful hosts for our two week visit. They live in the desert and on our first morning we were greeted by a family of Nebraska men! For those of you who know better you will realise that they were in fact peccaries (called javelina in USA).

Javelina in garden

Us in Botanical Gardens

I spoke at four different meetings – three of them in areas around Phoenix and the fourth at Tucson. These meetings were hosted by AZOSA who are working hard to teach people about God’s amazing creation and saving power.

We were taken to see many interesting things – amazing geological formations, the Botanical Gardens which contained more varieties of cacti than you could begin to imagine. We also visited the mineralogical museum in Phoenix which had an impressive collection of minerals, many of them local to the area. We were impressed to see the beauty and variety of these minerals which have enabled us to produce computers, cars, batteries and so on. Our great God had placed these things in the ground for our benefit and use.

We also visited Kartchner Caverns which were only discovered in 1974. It was interesting to see the remains of a dead bat which had lain on the floor of the cave at the time of its discovery. Since that time two foot of stalagmite has grown around and above the bat. This fact reveals something different from the millions of years stories the guide was telling us.

Best of all was our visit to the Grand Canyon with its awesome sights and breathtaking views. The temperature was well below freezing and there was thick snow during our visit to this amazing place - this was quite a contrast from the hot desert conditions we had experienced at the start of our visit. At times the views disappeared in thick cloud and then the indescribable beauty of the rock faces emerged as the cloud and mist rose – it was breathtakingly spectacular. It is hard to realise that this beautiful monument is a record of the devastation that occurred to the world as a result of God’s judgement of man’s wickedness at the time of the flood.

Snowy Grand Canyon

snow, clouds & rocks

First Meeting

Bookings

I have a number of spaces available for ministry in the next few months so if you would like me to speak at your church/ meeting then please contact Irene – details at the end of this sheet. I am still willing to travel to any location – some people think that now I am living back in South Wales that I would not be interested in travelling further afield to give talk but this is not so as you can see from my diary if you have access to the internet.

Newsletter

It would be a big help to us in cutting down postage costs if we could send as many copies as possible of my Newsletter via e-mail. If you would like to receive your copy in this way then please e-mail your address to us and we will arrange for you to have future copies via this means.

If you do not have access to the internet please do not worry as we are very happy to continue sending it to you in printed form. However, if you would prefer to have your name removed from the mailing list just let me know. My contact details are below.
