

Dear Friends,

Since my last Newsletter, I have had a very busy time with speaking engagements every weekend except one! In February I had a number of bookings in South Wales. At one church a young lady turned to the Lord for salvation. This is what it is all about and we praise the Lord. *"There is joy in the presence of the angels of God over one sinner who repents."* (Luke 15:10).

At the end of several of the meetings a number of young people came to thank me for the message saying that they could not wait to get to school so that they could give answers to their scoffing fellow pupils. It is always good to meet people and to be reminded of the very real problems people of all ages and walks of life have, not just in the matter of creation and evolution, but also in understanding all areas of the Bible.

One teenage girl I met had been thrown out of her class at school because she had mentioned creation in an essay that her teacher had asked her to write about origins. It is one thing for people like me to go to churches and other meetings to give creation talks, but the truly brave people are those of you who make a stand for these truths in their schoolroom or in their workplace. I am just pleased that I am able to pass on information through my talks to equip these people so that they can witness more effectively.

I have been contacted by a publisher who is interested in publishing my rewritten book *What About Origins?* This has helped spur me on to get it finished. It is proving to be a much bigger task than I had expected to rewrite it, especially as checking all of the facts and figures of the latest scientific claims is very time consuming.

Thank you for your continued support, interest and prayers for my ministry.

Yours sincerely in Christ,

Dr A J Monty White

House

We have had a further disappointment about the house sale. A few weeks ago we got a cash offer; the buyer was even going to buy some of our furniture. We made an offer on a house and the move was due to take place at the end of May. Sadly our buyer had to withdraw for personal reasons. This means that we are unable to proceed with our purchase. This is all very frustrating and bewildering. Please pray for us about this.

House Party

Our House Party which was held at Brockley Hall in Saltburn-by-the-Sea, North Yorkshire, went well. There were only a few people there but the fellowship was excellent and we were well looked after by the staff. I have been invited to lead another of these mini-conferences in two years time. Look out for it and do try to join us at this beautiful location.

Noah's Ark Zoo Farm

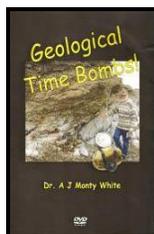

Recently we had the privilege of visiting this wonderful zoo farm which is just outside Bristol. Some years ago, before the zoo farm opened, Irene and I were invited along to the farm to meet with the owners Anthony & Christina Bush.

Unexpected Encounter

In Peter's first epistle we are instructed to *"always be ready to give a defence to everyone who asks you a reason for the hope that is in you, with meekness and fear."* I had a new experience of this the other week when I was out shopping – those of you who know me well know how much I love to go shopping. I was in a supermarket in Leicester when an African gentleman came up to me – he recognised me from several years ago when he had been a student in Cardiff. I had spoken at a meeting to his student group. Now, all these years later he is a Pastor in Leicester. He asked if I was free to preach at his church on Easter Sunday morning and it was my delight to be able to accept this meeting at short notice. What a joy to be able to preach about the glorious resurrection of Jesus our Lord and Saviour on Easter Sunday. During his introduction I learned that at that meeting in Cardiff all those years ago, my message had so answered the problems that many of the students had regarding creation and evolution that it resulted in several of them being saved. It is very humbling to learn of how the Lord has been able to take my faltering words to reach into people's hearts and lives. Irene and I were the only white faces in the church on Easter Sunday and it was such a blessing to share with our African brothers and sisters as we celebrated our risen Saviour together.

New DVDs

I have two new DVDs available **Geological Time Bombs!** and **Genesis: The Foundation of our Faith**. They have been produced by *Two by Two* and are available directly from me. Please send a cheque (made payable to Dr Monty White) for £10 per each DVD plus £1.20 P&P to the address opposite.

It was exciting to hear of their plans to use their farm as a way of teaching people about the feasibility of the Bible's account of Noah's Ark being accurate. With their farming background they were able to work out ways the animals would have been accommodated on the ark. It was a treat for us to have been taken to see their large model ark as it was being constructed. Now, over a decade later, we were able to see the fruition of much of their plan.

There are times when you have the chance to feed some of the animals. The animals vary from domestic animals to their latest acquisition of some tigers. It is well worth a visit either as a family, or as a group from your church or Sunday School. They also arrange visits from schools. You can get details from their website www.Noahsarkzoo.com or Telephone: 01275 852 606.
